Subscription rate per volume of Fizika B (one printed issue in 2001): For Croatia:  
Members of the Croatian Physical Society 50 HRK, institutions 200 HRK; foreign  
orders \$ 50.

Correspondence and/or calls regarding subscriptions, renewals, address changes  
and missing or damaged copies should be addressed to:

Editorial Office, Fizika, Bijenička cesta 32, HR-10000 Zagreb, CROATIA

Tel. & Fax. (direct) +385-1-4680055, Exchange: Tel. +385-1-4605571,

Fax. +385-1-4480336, E-mail: ilakovac@phy.hr

Payments should be made by bank transfer to our account, check, bank money  
order or international postal money order.

Payments in HRK should be made to bank account no. 30102-678-4202

Payments in foreign currency should be made

– bank transfer to ZBZ dd SWIFT ZABA HRXX, account no. 25731-32 39 853  
(HFD)

– checks should be sent to the Editorial Office, the payment to: The Croatian  
Physical Society, account no. 25731-32 39 853.

The journal Fizika B (Zagreb) is financially supported by the Ministry of  
Science, Education and Sports of the Republic of Croatia

The journal Fizika B (Zagreb) is abstracted/indexed by:

ALUMINIUM IND. ABS., ENERGY SCITEC, GEOREF, INSIDE  
CONFERENCES, INSPEC, MATHSCI(R), NUCLEAR SCI. ABS., PASCAL  
and UNCOVER

Fizika B (Zagreb) is available online (URL: <http://fizika.phy.hr>) and on  
CD-ROM.

CD-ROM editions of Fizika B (Zagreb) Vol. 6 (1997) and further issues are  
available.

# CONTENTS, FIZIKA B, VOLUME 16 (2007)

(by subfields)

Note: The page numbering of articles is done when articles are ready for publication and placed online on Fizika web pages. In these Contents, the articles are rearranged according to the subfields represented in the journal. Therefore, page numbering is not consecutive.

## NUCLEAR PHYSICS

G. E. Markaryan:	Some indications of liquid-gas phase transition in electron-induced fragmentation of $^{197}\text{Au}$ nuclei (LETTER TO THE EDITOR) .....	49
D. Ghosh, A. Deb and S. Dutta:	Fluctuation of pions in relativistic and ultrarelativistic nuclear collisions-scale dependent or not?.....	67
M. Bhattacharya and G. Gangopadhyay:	Continuum states in neutron-rich calcium and nickel nuclei.....	113
Sh. Ahmad, A. R. Khan, A. Kamal, A. Ahmad, M. Zafar and M. Irfan:	Signature of void probability scaling in $^{28}\text{Si}$ -nucleus collisions .....	159

## PARTICLES AND FIELDS

R. S. Sharafiddinov:	Family structure of leptons and their currents of an axial-vector nature .....	1
D. E. Miller and A.-N. Tawfik:	Entropy for colored quark states at finite temperature.....	17
M. Abu-Shady, M. Rashdan and T. S. T. Aly:	$\text{N}\pi$ scattering and electromagnetic corrections in the extended linear sigma model.....	59
D. Horvatić, D. Klabučar and D. Mekterović:	Unexpectedly small empirical vector strangeness of nucleons predicted in a baryon model .....	89

## ASTROPHYSICS AND COSMOLOGY

K. K. Mondal:	Linear waves in a self-gravitating dusty plasma with dust charge fluctuation .....	39
R. A. El-Nabulsi:	Cosmology from extended general relativity (LETTER TO THE EDITOR) .....	79
A. Pradhan, V. Rai and R. S. Singh:	Bulk viscous cosmological models in general relativity .....	99
R. A. El-Nabulsi:	Geometrical Higgs mass and boson stars from complex scalar field Brans-Dicke gravity.....	129
A. Pradhan, K. Srivastava and A. L. Ahuja:	Nonsingular cosmological models with a variable cosmological term $\Lambda$ .....	141
R. A. El-Nabulsi:	Accelerated expansion of a closed universe (LETTER TO THE EDITOR) .....	167
A. Pradhan, A. K. Yadav and J. P. Singh:	A new class of plane-symmetric inhomogeneous cosmological models of perfect fluid distribution with electromagnetic field .....	175

<i>R. A. El-Nabulsi:</i> Low-energy effective string cosmology: transition from inflation to deflation to accelerated expansion (LETTER TO THE EDITOR) .....	197
<i>A. Pradhan:</i> Magnetized string cosmological model in cylindrically-symmetric inhomogeneous universe with variable cosmological term $\Lambda$	205
<i>F. Rahaman and R. Mondal:</i> Non-static global monopole in Lyra geometry	223

Authors are advised to consult “Instructions for Authors” on Fizika web pages at <http://fizika.phy.hr> before starting preparations of the manuscript for submission for publication in Fizika B.

## CONTENTS, FIZIKA B, VOLUME 16 (2007) (by page number)

Note: The page numbering of articles is done when articles are ready for publication and placed online on Fizika web pages. In these Contents, the articles are arranged according to the page number.

### $\mathcal{N}^o$ 1.

<i>R. S. Sharafiddinov:</i> Family structure of leptons and their currents of an axial-vector nature .....	1

<i>F. Rahaman and R. Mondal:</i>	Non-static global monopole in Lyra geometry.....	223

## INSTRUCTIONS

Fizika B is a journal publishing the results of original experimental and theoretical research work in general physics, nuclear physics, particles and fields and astrophysics.

Contributions written in English, French, German or Russian are accepted. They should be submitted in duplicate, typed on good quality paper on one side only, with double spacing and wide margins, with original drawings of figures and one further copy of the title and abstract in English if the original is in a different language. The abstract should not exceed 600 letters including all symbols.

The front page of each manuscript should include the title of the paper, author's full name(s), affiliation(s) with full address(es) and preferably the UDC and PACS classification numbers. To speed up communication, authors are encouraged to provide e-mail address, FAX and telephone numbers. Unless requested otherwise, the e-mail address and/or FAX number will be published with the author's address.

International system of units (SI) should be used whenever possible, particularly in quoting final results and in table and figure inscriptions.

The figures should preferably be produced by a laser printer on good-quality white paper or drawn in Indian ink on tracing paper. Figures should be fully lettered. Black and white photographs on glossy paper with high contrast are accepted. Reduction to about 1/3 of the original size is usually used. The lettering in the figures must be large enough to make the final size at least 1.5 mm high. All figures should be numbered consecutively with Arabic numerals in order of appearance in the text, and each should have a descriptive caption.

Each table should be numbered sequentially and should have a descriptive caption.

References should be numbered consecutively with Arabic numbers in square brackets. In the text the abbreviation et al. should not be used for papers written by two authors. All references should be listed on a separate sheet and **should include the names of all authors**. (Except for very large collaborations of more than about 10 authors.) The references should be written using the following style: [5] S. Smith and J. K. Jones, Phys. Rev. **295** (1972) 422.

Equations should be written carefully and clearly and numbered sequentially on the right-hand side. Special care should be paid to all symbols that can be misread, confused or are ambiguous (e.g. to distinguish between subscripts and superscripts). Please add a note in the margin to avoid such ambiguities or to explain special symbols.

The footnotes should be numbered in Arabic superscripts and placed at the bottom of the page in which they appear in the manuscript.

*When typing the manuscript, authors are strongly advised to consult recent issues of Fizika.*

A shorter paper, not subdivided into sections, of less than 600 words in length, with a modest number of illustrations and a short abstract, should be submitted as "Letter to the Editor".

For refereeing purposes only, papers including figures may also be sent by FAX. After the paper has been accepted for publication, the author(s) will be advised to send two original copies, including figures, to the Editor for further processing.

To speed up the publication, the authors of accepted papers are encouraged to send a source file of their papers in standard L<sup>A</sup>T<sub>E</sub>X(style "article") or in plain T<sub>E</sub>Xwithout any author-defined styles and/or macros, and figures in PostScript format. This can be done by electronic mail or on a floppy disc (MS-DOS). Please read "Instructions for Authors" on our home pages.

When submitting a paper, the authors should include a covering letter, signed

by one of the authors, clearly requesting publication of the paper in the journal Fizika.

The submission of the paper will be taken to imply that no copyright will thereby be infringed.

There is no page charge for publication of papers and authors are entitled to 30 free reprints.

The manuscripts of papers accepted for publication are not returned.

Manuscripts for publication and all correspondence should be sent to: The Editor, Fizika, Bijenička c. 32, HR-10000 Zagreb, CROATIA. FAX +385-1-4680 336 or +385-1-4680 055, e-mail: ilakovac@phy.hr.

#### SERVICE FOR THE READERS OF THE JOURNALS FIZIKA A & B

The contents and abstracts of Fizika A and Fizika B since 1992 (in hypertext) and full articles since 1997 (in ps and pdf formats) are available on the computer network Internet. They can be accessed by using the following URL of our home pages:

<http://fizika.phy.hr/> or <http://fizika.hfd.hr/>
